SUMMARY

A result-driven certified Full-Stack Web Developer with a management background. Recently graduated from Lighthouse Labs and completed a Full-Stack Web Development diploma. Proficient in programming languages, modern front-end, back-end plus testing frameworks. Experienced in API design, version control tools like Git, Object-oriented programming concepts, and software development workflow. Basic understanding of CI/CD pipeline. Having experience in customer service and management, I found myself passionate and focused on web development and eager to collaborate with my coding and problems solving skills.
