Free Code Camp ·  
Front-End Development Libraries Certificate 2021

Free Code Camp ·  
JavaScript Algorithms and Data Structures Certificate 2022

A result-driven certified Full-Stack Web Developer with a management background. Experienced in designing, developing, and implementing applications and solutions using a range of technologies and programming languages such as Javascript, React, HTML/CSS, API design, UX /UI, Object-oriented programming concepts, and software development workflow. A passionate, innovative solution seeker is excited to be ready for the deployment phase of my new career as a developer.

## Employment

### Gupta Financial Services

Web Developer

Ottawa

Dec. 2021 to Current

- Developing a website that is based on processing Legal Documents (Agreements, Divorce, Child Custody, etc).
- The website involves prompting users to answer a series of questions and helps to fill out Ontario Court Forms as per their requirements.
- My role involves developing and testing the React.js frontend.
- On submission, the data is posted to a microservice running on a separate server that interacts with a third-party API and generates the pdf.

### Hinduja Global Solution Pvt Ltd

Customer Advisor

Ottawa, ON

Apr. 2021 to Sept. 2021

- Handled customer inquiries and resolved their problems with good customer support skills.
- Good analytical skills which helped customers to review and analyzed their yearly and monthly bill statements.
- Have transferable skills and data entry skills.

## Projects

### Legal Self Rep

Dec. 2021 to Current

- The project is based on processing legal documents in Canada. It includes forms for the following Legal Documents: Agreements, Divorce, Child Custody, Child Support, and Spousal Support.
- Tech Stack: Backend - Spring Boot, Frontend- React.js, DB-MySQL

### Yelp\_like

2021

- Created a full-stack multi-page application with Register, Sign-in, and Logout form and integrated google API.
- users can check reviews and comments of a particular restaurant and can give and manage their own reviews after sign-in app.
- Tech Stack: Ruby, Rails, Javascript, React, HTML/CSS, Bootstrap, Google Map API

### Quiz App

2021

- Created fast Axios API interactions for querying the database built and testing an application that allows users to attempt quizzes.
- Users can play and can also create their own quizzes list on the home page, and can see the results of their attempts.
- Tech Stack: EJS, Javascript, Ajax, Express, Jquery, HTML/CSS, Saas, Bootstrap, and PostgreSQL.

### Interview Scheduler

2021

- Implemented full-stack application in React.js. Deployed 4 separate pages with dynamic react classes. Created fast Axios API interactions for querying the database using the latest tools and techniques, that allow users to book and cancel interviews. Combined a concise API with a WebSocket server to build a real-time experience.
- Deployed the CI/CD pipeline using Heroku (for PostgreSQL), CircleCI (running the Jest and StoryBook test), and Netlify(React front-end).
- Tech Stack: React, Axios, WebPack, Babel, Jest, WebSockets, Storybook, Bootstrap.
